

Mazin Emad

Frontend Developer

Giza, Egypt | +201128141970 | mazin0emd@gmail.com | <https://mazin-emad.netlify.app>

PROFESSIONAL SUMMARY

Angular Frontend Developer with expertise in RxJS, NgRx, Angular Material, and Reactive Forms, complemented by professional experience with React and Next.js. Skilled in component architecture, state management, performance optimization, and cross-functional collaboration to deliver scalable, intuitive web applications.

EXPERIENCE & PROJECTS

ESKON — Property Rental Platform

Team Project | 2026

Angular, NgRx, Angular Material, RxJS, Reactive Forms, Angular CLI

- Built responsive property listing pages using Angular and TypeScript as part of a team project alongside a .NET backend, integrating REST APIs with routing, forms, and reusable UI components.
- Collaborated closely with backend developers to deliver a seamless rental platform experience.

E-Commerce Product Catalog Platform

Personal Project | 2025 – 2026

Angular, Angular Router, Angular Material, HttpClient, RxJS, SCSS

- Developed a product catalog with category browsing, search, filtering, and product details, integrating REST APIs via a clean service-based architecture with Angular Material.

Qudra — Speech & Language Therapy Platform

Freelance | 2025 – Present

React, Tailwind CSS, shadcn/ui, Figma

- Developed a responsive web platform for speech and language therapy using React and Tailwind CSS, collaborating with a .NET backend developer and UI/UX designer.
- Built reusable UI components and integrated backend APIs to deliver personalized educational experiences for children through a question-based learning system.

Wsyelh — AI-Enhanced Exam Platform

Freelance | 2025 – 2026

React, Tailwind CSS, shadcn/ui, React PDF

- Led frontend development for an AI-enhanced exam preparation platform using React and Tailwind CSS, building modern responsive interfaces integrated with a .NET backend.
- Implemented PDF generation and reporting functionality to support educational assessment workflows.

Sayara — Arabic-First Car Marketplace

Personal Project | 2026 – Present

Next.js, TypeScript, Firebase, Cloudinary, Tailwind CSS

- Built a mobile-first car marketplace using Next.js, TypeScript, and Firebase, featuring listing management, image uploads, and real-time data integration.
- Optimized performance and UX for Arabic (RTL) users across mobile and desktop devices.

Frontend Developer — StafflyHR

Remote | 10/2024 – 7/2025

Built a complete HR management platform with a cross-functional team

- Architected reusable component libraries and modular frontend structure using React.js and Tailwind CSS, ensuring scalability across employee tracking, authentication, and team organization modules.
- Optimized frontend performance through lazy loading, memorization, and code splitting, and implemented secure authentication flows with React Query and Axios.

Frontend Developer — Raizero.com

Remote | 9/2023 – 10/2024

Led frontend development for the agency's official portfolio website

- Built the agency's portfolio site from the ground up using React.js and Tailwind CSS, establishing reusable architecture patterns and responsive design breakpoints.
- Conducted performance audits and streamlined asset delivery, achieving improved Lighthouse scores across devices.

Frontend Developer — Assiut Motorsport Website

University Activity | 1/2023 – 12/2023

- Created an interactive animated website using React.js, Tailwind CSS, and React Query with component-driven architecture and performant data fetching strategies.

TECHNICAL SKILLS

Core: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, RxJS, NgRx, Angular CLI, Angular Material, Reactive Forms, Angular Router, Dependency Injection

Secondary: React.js, Next.js, Node.js, Express.js, Tailwind CSS

Tools & Platforms: Git, GitHub, Firebase, REST API Integration, Figma, Supabase

Concepts: Component Architecture, State Management, Performance Optimization, Responsive Design, OOP, Data Structures & Algorithms

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Adaptability, Continuous Learning

EDUCATION

Egyptian E-Learning University

Assuit, Egypt

Bachelor of Science in Computer Science — 2026

- Focus: Software Development & Artificial Intelligence
- Relevant Coursework: Data Structures & Algorithms, OOP, Web Development, Database Systems, Software Engineering, Machine Learning

COMPETITIONS & ACTIVITIES

ICPC Competitive Programming Contestant

2022, 2024

Egyptian Collegiate Programming Contest (ECPC) & University-level ICPC qualifiers

- Represented EEL University solving algorithmic problems under time pressure using C++ and Python, building strong problem-solving and teamwork skills.

ADDITIONAL

Languages: Arabic (Native), English (Professional)

Interests: Coding Challenges & Problem Solving, AI & Web Development, Reading
