PROFESSIONAL SUMMARY

Full-Stack Developer specializing in React.js, Next.js, and Node.js with Express, with strong expertise in component architecture, state management, RESTful API design, and performance optimization. Experienced leading frontend teams while building complete, scalable web applications end-to-end — from responsive, accessible client interfaces to backend services and API integrations.

EDUCATION

Egyptian E-Learning University *Assiut, Egypt*
Bachelor of Science in Computer Science — GPA: 3.1 2022 – 2026
Focus: IT & Network Engineering, Software Development & Artificial Intelligence
Relevant Coursework: Data Structures & Algorithms, OOP, Web Development, Database Systems, Software Engineering, Machine Learning

PROJECTS

Full-Stack Developer *4/2026 – 9/2025*
Lamma — Team Formation & Project Graduation Project
React, Next.js, TypeScript, Tailwind CSS, .NET (backend) — Graduation Project

- Led full-stack development of Lamma, a student team-formation platform built with React/Next.js and .NET.
- Managed architecture, API integration, sprint delivery, and collaboration across development and design.

Full-Stack Developer *7/2025 – 5/2026*
Qudra — Speech & Language Therapy Platform
React, Node.js, Express, Tailwind CSS, shadcn/ui, Figma — Freelance

- Developed a responsive web platform for speech and language therapy, collaborating with a .NET backend developer and UI/UX designer.
- Built reusable UI components and integrated backend APIs to deliver personalized, question-based learning experiences for children.

Full-Stack Developer *2/2025 – 4/2026*
Wsyelh — AI-Enhanced Exam Platform
React, Node.js, Express, Tailwind CSS, shadcn/ui, React PDF — Freelance

- Led frontend development for an AI-enhanced exam preparation platform, building modern responsive interfaces integrated with a .NET backend.
- Implemented PDF generation and reporting functionality to support educational assessment workflows.

Full-Stack Developer *2/2026 – 5/2026*
Sayara — Arabic-First Car Marketplace
Next.js, TypeScript, Node.js, Firebase, Cloudinary, Tailwind CSS — Personal Project

- Built a mobile-first car marketplace using Next.js, TypeScript, and Firebase, featuring listing management, image uploads, and real-time data integration.

- Optimized performance and UX for Arabic (RTL) users across mobile and desktop devices.

Frontend Developer — StafflyHR *10/2024 – 7/2025*
React.js, Tailwind CSS, React Query, Axios — Remote

- Architected reusable component libraries and a modular frontend structure for a complete HR management platform, covering employee tracking, authentication, and team organization modules.
- Optimized frontend performance through lazy loading, memoization, and code splitting; implemented secure authentication flows with React Query and Axios.

Frontend Developer — Raizero.com *9/2023 – 10/2024*
React.js, Tailwind CSS — Remote

- Led frontend development for the agency's official portfolio website, establishing reusable architecture patterns and responsive design breakpoints.
- Conducted performance audits and streamlined asset delivery, achieving improved Lighthouse scores across devices.

TECHNICAL SKILLS

Core: React.js, Next.js, Node.js, Express.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, React Query
Secondary: Angular, C#, .NET Core
Tools & Platforms: Git, GitHub, Firebase, Docker, REST API Integration, Figma, Supabase
Concepts: Component Architecture, State Management, Performance Optimization, Responsive Design, OOP, Data Structures & Algorithms
Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Adaptability, Continuous Learning

COURSES & CERTIFICATES

- **JavaScript** — El-Zero Web School
- **React.JS/Next.JS** — Udemy — Instructor: Eng. Hossam Mansour
- **Web Development Challenger Track** — Udacity *(Dec 2022)*
- **CCNA: Introduction to Networks** — Cisco Networking Academy *(May 2024)*

COMPETITIONS & ACTIVITIES

- ICPC Competitive Programming Contestant (2022, 2024) — Egyptian Collegiate Programming Contest (ECPC) & University-level ICPC qualifiers. Represented EEL University solving algorithmic problems under time pressure using C++ and Python.

ADDITIONAL

Languages: Arabic (Native), English (B2)
GitHub: 40+ repos, active contributor to “Al-Redwan Center”
